Dr. Chris Otto

Director of Special Services

Gifted Goals and Objectives 2015-2016

For 3-5 grade identified gifted students in Libertyville District 70

Math

Student will understand and solve algebraic equations through physical and pictorial representations.

Student will apply algebraic skills to set up and solve verbal problems.

Student will learn mathematical problem-solving strategies for rational decision making and apply them to real-world situations.

Reading

Student will learn and identify advanced literary devices.

Student will make connections between present knowledge and new information derived from varied materials. They will analyze relationships and validate conclusions using text support.

Student will communicate efficiently and effectively through various modalities.

Social/Emotional

Student will develop an understanding of self and how their unique characteristics may influence interactions with others.

Student will work on peer and social interactions.

Student will reduce the impact of their asynchronous development by developing self awareness and perseverance.
